Hi Susan,

The new point person for Arizona standards, TMDLs, and assessment is Matt Bolt, cc'ed here. I'm working closely with him on various projects so there is continuity. We'll discuss internally this week and get back to you by next Monday. I apologize for the delay, it was on my radar, but I didn't prioritize it over the mandatory duty actions (the 2016 triennial review, TMDLs, and the 303d list). We understand it's an important effort, and want to assist with it moving forward, so we'll get back to you with a timeframe and details.

Thanks,

Stephen Maurano

Subject: Checking on the status of review: Technical Report and Summary of AZ Narrative Nutrient Criteria for Lakes and Reservoirs

All,

I am checking to see where in the process Region 9 or Headquarters may be in review of the cited documents. ADEQ first submitted the documents in July 2016, around the same time that the 2016 Water Quality Assessment was submitted for EPA review. I contacted Stephen in October to check and was prompted to re-submit the documents in October 2016. Stephen confirmed that he received both documents at that time. I gather that duties and roles may have changed at Region 9 over the past several months, so am checking again to ascertain status. Thank you in advance for checking on this for me!

Susan Fitch
